The Associate Degree Nursing Accelerated Program for Licensed Practical Nurses and Paramedics is designed for those individuals who are currently LPNs or Paramedics and aspire to ADN status. The Accelerated Program can offer you four semesters of nursing courses in 3 semesters of full-time study.

Because of the shortened time frame, you will be required to complete some of the general education courses prior to enrollment. A transition semester is offered to assist you in mastering first year Associate Degree Nursing objectives not previously achieved. Successful completion of the transition semester allows students to begin the second year ADN curriculum in the following semester.

Please be aware that as an ADN student, you may be scheduled for day or evening classes and weekend clinical labs.

The following courses are listed in sequence and must be completed in, or prior to, the semester listed. Any change must be approved by the program head. There is no expiration date for general education coursework.
